Frequently asked questions

How are my premiums calculated?

Your premium is calculated to suit your personal and unique risk profile. We will ask you a few questions in order to generate a quote. The factors that influence your premium include:

- Your age and gender.
- Whether you smoke or not.
- Your occupation, etc.

How does the blood test work?

You do not need to undergo a medical examination on application. All we require is one simple blood test and as part of our pledge to making life insurance easier we will send the nurse to you. On receipt of your first premium our travelling nurse will contact you in order to make an appointment at a time and place of your convenience. Once we have received the result of your blood test, we will be in contact to confirm your cover.

How do I submit my claim to receive my payout quickly and effortlessly?

To submit a claim, please phone 011 320 3000 and one of our friendly consultants will assist you. We will require certified copies of the completed claim form, ID of Beneficiary & Life Insured and Death Certificate. Additional documentation may be requested. Clientèle must receive notice of a claim within 60 days of the date of the event you are claiming for.

What is excluded from the policy?

Death as a result of suicide or self-inflicted injury within the first two years is excluded. Death as a result of participation in a criminal act or in violation of the law is also excluded. For a complete list of exclusions please refer to your policy documentation.

Will my premiums increase yearly?

To protect the value of your policy against the effects of inflation, your benefits increase by 6% every year. This will result in an annual premium increase of 10%.
